BOOTH INFORMATION

Standard booth space is 3x3m. Exhibitors may receive an event guide listing, attendee list in accordance with the SMTA data privacy policy, and refreshments. A standard 1.8m draped table and two chairs are provided by request. All other supplies, signs, equipment, furniture, utilities, etc. must be provided by exhibitors at their own expense.

Please review the Display Regulations before proceeding with the design of your exhibit and share this information with any contractor to ensure your booth is compliant — variances will not be granted for any booth regardless of circumstances.

All curtains, drapes, decorations or construction materials are to be non-combustible or flame retardant.

All areas of the booth, including signs and graphics, must have the back side finished and must not carry identification or other copy that would detract from the adjoining exhibit. All unfinished sides are to be covered at exhibitor's expense. The exhibit shall not obstruct the view of adjoining exhibits nor be operated in any manner objectionable to other exhibitors. All lighting within the exhibit must be arranged and operated so as not to be distracting to adjacent exhibits.

***All materials and trash must be removed from the premises. If any materials are not removed, you may incur charges for the additional labor and disposal.*

DISPLAY REGULATIONS

SMTA follows all International Association of Exhibitions and Events (IAEE) Guidelines for Display Rules & Regulations, updated 2019 edition. Exhibitors not adhering to or non-compliant of these regulations will receive one verbal warning and may be banned from participating in future events.

Line-Of-Sight Style

Line-of-Sight display rules provide restrictions on certain areas of booths to allow attendees to view neighboring booths in their line of sight as they walk the floor. There are a variety of booth types, and each one is addressed below with specific insight on how to implement Line-of-Sight regulations.

Linear Booth

The ability to have products or services easily seen by attendees as they walk the aisles is essential to all exhibitors, and that is the basis for including a Linear Booth Line-of-Sight setback rule. Linear Booths, also called “in-line” booths, are generally arranged in a straight line and have neighboring exhibitors on their immediate right and left, leaving only one side exposed to the aisle.

Dimensions

For purposes of consistency and ease of layout and/or reconfiguration, floor plan design in increments of 10ft (3.05m) has become the de facto standard in the United States. Therefore, unless constricted by space or other limitations, Linear Booths are commonly 3m (10ft) wide and 3m (10ft) deep, i.e. 3m by 3m (10ft by 10ft). A maximum back wall height limitation of 2.44m (8ft) is to prevent display materials from imposing on neighboring exhibits behind the back wall.

Use of Space

Regardless of the number of Linear Booths utilized, display materials should be arranged in such a manner so as not to obstruct sight lines of neighboring exhibitors. The maximum height of 2.44m (8ft) is allowed only in the rear half of the booth space, with a 1.22m (4ft) height restriction imposed on all materials in the remaining space forward to the aisle.

Note: When three or more Linear Booths are used in combination as a single exhibit space, the 1.22m (4ft) height limitation is applied only to that portion of exhibit space which is within 3m (10ft) of an adjoining booth.

DISPLAY REGULATIONS

Corner Booth

A Corner Booth is a Linear Booth at the end of a series of in-line booths with exposure to intersecting aisles on two sides. All guidelines for Linear Booths apply.

Perimeter Booth

A Perimeter Booth is a Linear Booth that backs to an outside wall of the exhibit facility rather than to another exhibit.

Dimensions and Use of Space

All guidelines for Linear Booths apply to Perimeter Booths except that the typical maximum back wall height for Perimeter Booths is 3.6m (12ft).

DISPLAY REGULATIONS

Split Island Booth

A Split Island Booth is a Peninsula Booth which shares a common back wall with another Peninsula Booth.

Dimensions and Use of Space

The entire Cubic Content of this booth may be used, up to the maximum allowable height, without any back wall Line-of-Sight restrictions. A maximum height range allowance is 5m (16.4ft), including signage. The entire Cubic Content of the space may be used up to the maximum allowable height. Double-sided signs, logos and graphics shall be set back 3m (10ft) from adjacent booths.

DISPLAY REGULATIONS

Island Booth

An Island Booth is any size booth exposed to aisles on all four sides.

Dimensions and Use of Space

An Island Booth is typically 6m x 6m (approximately 20ft by 20ft) or larger, although it may be configured differently. The entire Cubic Content of the space may be used up to the maximum allowable height is 5m (16.4ft), including signage.

DISPLAY REGULATIONS

Extended Header Booth 6m (approximately 20ft) Or Longer

An Extended Header Booth is a Linear Booth 6.10m (20ft) or longer with a center extended header.

Dimensions and Use of Space

All guidelines for Linear Booths apply to Extended Header Booths, except that the center extended header has a maximum height of 2.44m (8ft), a maximum width of 20% of the length of the booth, and a maximum depth of 2.7m (9ft) from the back wall.

DISPLAY REGULATIONS

Canopies & Ceilings

A canopy or ceiling is an exhibit component supported over an exhibit space for decoration or privacy.

Canopies, false ceilings, umbrellas and any enclosures are permitted to a height that corresponds to the height regulation for the appropriate exhibit configuration of which they are a part. For example, canopies will not exceed 2.5m (8'3"ft) in height in an in-line booth configuration. Furthermore, the canopy or false ceiling will not exceed 30cm (1ft) in depth and cannot be used for identification or display purposes.

Depth

Canopies may extend out to the aisle line and up to the booth line on either side of an exhibitor's space provided that the support structure will not exceed 7.62cm (3in) in width when placed within 3m (10 lineal ft) of an adjoining exhibit and not confined to that area of the exhibit space which is at least 1.52m (5ft) from the aisle line.

Hanging Signs & Graphics

Hanging Signs and Graphics are allowed in all standard Peninsula and Island Booths, to a maximum height range of 5.5m (18ft) from the top of the sign. End-cap Booths do not qualify for Hanging Signs and Graphics. The distance is measured from the floor to the top of the sign. Whether suspended from above, or supported from below, they should comply with all ordinary use-of-space requirements. For example, the highest point of any sign should not exceed the maximum allowable height for the booth type. See Perimeter Booth for diagram.) Hanging Signs and Graphics should be set back 3.05m (10ft) from adjacent booths and be directly over contracted space only. Approval for the use of Hanging Signs and Graphics, at any height, should be received from Exhibitor Services prior to installation. Variances may be issued at SMTA's discretion.

Towers And Multi-Story Exhibits

A Tower is a free-standing exhibit component separate from the main exhibit fixture. The height restriction is the same as that which applies to the appropriate exhibit space configuration being used. Fire and safety regulations strictly govern the use of Towers. A building permit or safety lines may be required. A Multi-story Exhibit is a booth where the display fixture includes two or more levels. Multi-story Exhibits require prior approval by SMTA and Expo Guadalajara because it is deemed to be a "structure" for building purposes. Exhibitors shall provide engineering documents for all Multi-story Exhibits and towers over 2.44m (8ft) in height.

Occupancy

Exhibit booths with enclosures must ensure visible notification of maximum occupancy is posted outside of enclosure.

IMPORTANT:

All common walls, for any booth type, will need to remain graphics free on any side facing an aisle or neighboring booth; and must have a clean, finished look from all viewing points.

Exhibitors are cautioned when installing displays with a ceiling or second level, to check with the local fire department and exhibit facility to ensure their display meets fire precautions involving smoke alarms, fire extinguishers, sprinklers, etc.

SHIPPING INFORMATION

If your company needs a third-party freight forwarder there are four options listed below. It is recommended to provide a local, on-site representative in case of any issues. Please note these vendors are not affiliated in any way with SMTA. SMTA bears no responsibility for delays in shipments, lost or damaged shipments, or liability for damages.

Multitranportes Internacionales, S.A. de C.V. It is a 100% Mexican company with ISO 9001-2015 certification with offices and warehouses, in Monterrey, N.L. RULES AND POLICIES

Exhibitors and their contractors must have all business licenses, permits and insurance required by Expo Guadalajara and the Mexican government.

Exhibitors and their contractors are expected to conduct themselves in a professional manner. Inappropriate or abusive behavior, consumption of alcoholic beverages, or smoking inside the facility may result in removal of the individual from the property.

Alcohol can only be delivered by exhibitors 1 hour prior to the happy hour Reception, the moment the happy hour starts exhibitors should stop delivering alcohol. A verbal warning will be first and then an economic sanction will be delivered.

Dress Code: Attire must be professional for all booth staff.

Exhibitors must have their booth set up at least one hour prior to the opening of the expo hours. Exhibit spaces must be open during all published show hours or be subject to penalties for late openings and early closings.

Exhibitors and their contractors must properly dispose of all display materials, floor coverings, and excessive trash. Exhibitors who abandon displays, leave large or heavy amounts of trash will be charged all fees associated with its removal, which includes but is not limited to booth structures, signage and floor coverings.

Exhibitors and their contractors who owns or operates any vehicle at Expo Guadalajara must maintain automobile liability insurance with limits in an amount adequate to cover all of their motor vehicles being used at the venue.

Canvassing, solicitation of business, or the use of advertising material or signs by companies other than those who have contracted for space is prohibited. All distribution of sales material and activities must be confined to designated booth areas.

Security will be provided as required by Expo Guadalajara, as well as overnight. However, SMTA is not responsible for any lost or damaged items during this event.

All food and beverages services will be provided exclusively by Expo Guadalajara, outside food and beverages inside the venue is forbidden.

SMTA reserves the right to rearrange the floor plan and/or relocate any display. The SMTA Executive Director has the right to enforce any and all portions of these Rules and Regulations. In interpreting these Rules and Regulations, particular attention be given to preserving the professional and technical nature of the exhibition.

Failure to adhere to the above of the Rules and Regulations contained in this Exhibitor Kit may cause forfeiture of space. No refunds on will be made and SMTA will have the right to use the space for whatever purpose it deems appropriate.

RULES AND POLICIES

1.- EXHIBITORS AND ASSEMBLY WORKERS' RESPONSIBILITY

Ensure that the electrical installations of the stands or event area are carried out by specialized personnel who guarantee efficiency and safety in the work.

For safety reasons, the assembler or decorator must have in mind the setup of a charge center equipped with thermomagnetic protection units according to its electric charge to protect its electrical system within the stand.

The Exhibitor may hire at the Service Desk the electric power during the night for its equipment or devices, since the supply is suspended at the closing of the event. SMTA is not responsible for any damage caused to equipment or products derived from the non-hiring of the nighttime electrical power service.

2.- ASSEMBLING COMPANIES' RESPONSIBILITY

The assembling company is responsible for ensuring that all the provisional electrical installations under its command meet the regulation normativity, as well as to provide qualified support personnel during the entire period of the event.

For safety and normativity reasons, all metallic or stands masonry must be attached to the earth ground electrical system of the enclosure.

In case of noncompliance with the regulation, SMTA reserves the right to grant partial and/or total electrical supply, without any responsibility.

FACILITIES AND/OR EQUIPMENT DAMAGES

It is forbidden to take actions that impair or damage the facilities and / or equipment; economic sanctions will be filed valuing the cost involving the replacement or repair of damage plus a penalty given by SMTA. Penalty amounts shall be immediately paid by the exhibitor or their legal representant in accordance with applicable tariffs.

After the event, all exhibitors must remove all tape, marks and scraps on areas left in the event a result of the carpet placement or stroke distribution space. If necessary, to use special liquid, it should not leave any trace and cannot be flammable or toxic or damaging to the environment. Failure to meet this provision an economic penalty determined by SMTA will be applied to the exhibitor derived from the facilities cleaning jobs.

It is prohibited for the exhibitor or assembler, to leave material waste used for the stand confection or of any other installation on any area within Expo Guadalajara, nor to use for these ends Expo Guadalajara's containers. The fail to comply these regulations will derive on economic sanctions

3.- LOADING AND UNLOADING MANEUVERS

Any receipt of products, materials, assembly and / or goods must be made only during the event period and under the responsibility of the contractor.

Vehicle access to the event areas will only be allowed for loading or unloading purposes.

Vehicular access is forbidden in the halls at all times. Only those vehicles may enter that are directly part of the equipment to be exhibited during the days of the event prior authorization in writing by Expo Guadalajara.

All exceptions due to special requirements for mounting and disassembly, as is the case of cranes and fork-lift maneuvers inside the halls, must have been previously authorized and in writing by Expo Guadalajara.

Loading and unloading maneuvers on the sidewalks and avenues adjacent to the venue is forbidden.

All exhibitors, assemblers and suppliers must respect the loading and unloading schedule on the loading dock.

The exhibitor is responsible to Expo Guadalajara for any damage that this loading and unloading maneuvers might cause.

The exhibitor is responsible to notify and make sure that all its assemblers, suppliers, and all other individuals that enter the enclosure to perform any kind of labor have the social security statuses in order.

SMTA is not responsible, in any case, for theft or vehicle damage, equipment or material damage of any kind within Expo Guadalajara, including within the parking lots.

Platforms and loading carts for transferring materials are rented by the hour. Rental requires completing the general contracting format available in the Services Desk, making the payment at the desk in accordance with the current rate schedule and leaving an official identification in deposit.

The delivery of platforms and loading carts for and exhibitors is in the Services Desk once the service has been paid for.

The delivery of platforms and loading carts for the exhibitors will be during their mounting and the payment will be charged directly to the individual or paid directly at the services desk. Control, assignment, and use of the stated equipment are the responsibility of the exhibitor.

In the case of damage, theft, or loss the exhibitor or contracting company must pay the corresponding value of the platform and/or cart.

The maximum period for loading and unloading in the loading dock will be according to the schedule. If exceeded, the driver and/or vehicle responsible will be sanctioned on the current tariffs.

The penalty is generated at the exit checkpoint and then directed to the service desk for its payment.

After unloading the vehicle, it must be removed from the loading dock, freeing the platform for maneuvers.

Exhibitors, their contractors, or subcontractors agree to refrain from parking heavy equipment or vehicles on the streets, in order to keep a healthy neighborhood conviviality and order vehicles.

For removal, the equipment and/or materials must be moved first to the platform area; then staff will provide vehicular control access authorization to enter your vehicle.

The platform area is not a parking lot, nor a storage area, it shall only be used for loading and unloading maneuvers to events held in Expo Guadalajara.

SMTA or Expo Guadalajara reserves the right of access to vehicles and pedestrians in the loading dock area.

You must pay the penalty posted in the yard if the user leaves their parked vehicle or if you stay for more than your approved time in parking area.

Limit time without charge

	30 MINUTES
	60 MINUTES
	90 MINUTES
	120 MINUTES

4. -PARKING LOT

Exhibitors or their contractors must comply with the Internal Parking Regulation of Expo Guadalajara and the Parking Regulation from the Guadalajara City Hall.

Parking times go from 7:00 until 22:00 hours; this time is extended according to the operation and event requests.

The parking fee is published in the same one.

A charge will be applicable when the vehicle stays overnight.

In case of ticket loss, the user is obliged to cover the additional current fare.

Speed limit within the parking lot is 10km/h.

Vehicle entrance permitted meeting the height limits established.

Parking areas used for display, sales, product promotion, distribution of blurb, facility decoration or advertising is prohibited.

SMTA or Expo Guadalajara shall not be held responsible for any object loses left inside vehicles, for any damages that may be caused to them by natural phenomena, fire or third parties, neither mechanical failure, stolen parts or accessories.

5.- Generalities

All in attendance will be subject to the Tobacco Control General Act, therefore smoking is forbidden inside facilities, except designated areas for smokers.

Any audio equipment must be operated at a maximum of 68 decibels to protect the environment against pollution caused by the noise emission. The purpose is maintaining an environment that doesn't affect the activities within the venue or the neighbors of Expo Guadalajara.

SMTA or Expo Guadalajara will not be responsible for forgotten or abandoned items, materials, equipment or objects; instead, it reserves the right to dispose of such property.

6.- GRANDSTAND AND STAND MOUNTING GUIDELINES

*All companies that have customized stands must send the render to ana@smta.org for approval before August 16, 2024.

*Construction and/or fabrication of stands, stages or platforms, installation of bleachers, etc. inside the venue is not allowed, these must arrive prefabricated, and only assembly maneuvers are allowed.

*It is not allowed to apply paint inside the venue, they must already come painted or paint on the platforms, any paint stain found inside the venue will be charged 100 USD to the exhibitor.

*The use of drywall or plaster inside the venue to assemble stands is not allowed.

*The use of sanders without filters is not allowed, finishing the booths is only allowed if each contractor is constantly removing their trash and dust from the surrounding area. They should place plastic to prevent any type of dust from leaving their booth.

*It is mandatory that a person from the exhibiting company remain present during assembly to review the work of their assemblers.

Stands, stages, platforms, walls

SMTA has the power for authorizing the installation of any mounting that exceeds floor level, as are stages or platforms, stand with double floor, walls or drop ceilings that delimit the previously mentioned higher areas, and if so, they must comply with the following guidelines:

- a) Maximum height permitted
 - i. See Display Regulations Above
- b) Structural drawings with a validity no longer than 6 months from the installation date, must consider the following points through a professional contractor:
 - i. Loading capacity
 - ii. Security of the perimeter through special railings according to the number of visitors.
 - iii. Sign exhibition with the loading capacity
 - iv. Endurance of the used materials.
 - v. Height of the other areas.
 - vi. Visitors flow on the second floor.

All cases of two story stand installations, strict safety measures must be met, both in the assembling and the electrical processes.

Failure to comply with the regulation may be cause for partial or total closing of the stand by the authorities.

SMTA will report in writing to the Guadalajara Direction of Civil Protection and Fire Department, the events to be held in the venue, that entail any of the previously mentioned set ups, requesting that said authority be present in the venue to supervise, advise on the measures to be taken for preventing accidents and issue the appropriate ruling in writing.

If the authority determines danger existence within the facilities, the exhibitor will be notified and while the risk persists, the entire event may be closed.

Any exhibitor that will have a stand more than one level must present a detailed drawing at least 1.5 months in advance, with the following data:

The person legally responsible for the stand or any of the previously mentioned installations.

The identity of the assembler or decorator.

The individual who owns the structure where the stand was assembled, and who will have the responsibility of assembling and disassembling the structure.

The SMTA will request from the exhibitor:

- The floor plan (check that what is being assembled is what was designed) The structural plan (check that the assembly according to the space calculated)
- The assembling plan (check that the structure was assembled according to the technical specifications)
- Structural calculations signed by an expert (including the load resistance of the structure per square meter)
- Request a policy of civil liability coverage to the exhibitor (for exhibitor's protection and the protection to others, to respond to any incident)
- If for time reasons the exhibitor responsible for assembling the structure do not have a written technical information to support the design, a responsive letter may be requested which will serve as the authority of Civil Protection in the audit, do not dictate otherwise.

It is strictly prohibited to block the fire equipment and emergency exits, as well as removing the signs of evacuation routes, fire extinguishers and / or informational signage of the enclosure.

All booths shall comply with applicable safety regulations for mounting of structures of this kind, at the time of receiving the facilities will be necessary to deliver the structural calculation and current DRO signed by an expert.

7.- SAFETY MEASURES DURING MONTAGE AND DISASSEMBLING *MANDATORY FROM JAN 1, 2024

The activities considered of risk will be subject to approval by SMTA or Expo Guadalajara according to the relevant requirements of Civil Protection.

No vehicle may remain inside the halls or hallways, except those that are part of the integral exhibition and are authorized by SMTA.

The execution of set up or disassembly under the effect of alcohol or drugs is prohibited.

Assemblers and/or contractors must provide personal protective equipment to carry out their tasks in compliance with the NOM-017-STPS-2008, personal protective equipment-selection, use and management in the workplace, according to the activities protected as sets the standard.

- **Head: helmet against impact, helmet dielectric, hoods.**
- **Eyes and face: sunglasses, goggles, face shield.**
- **Ears: plugs hearing, shells acoustic. Upper extremities: gloves against chemicals, dielectric gloves.**
- **Body: Apron against chemicals, overalls, coverall.**
- **Tips below: footwear occupational, against impacts, conductive, dielectric, against substances chemical, leggings, boots waterproof.**
- **Other: equipment for protection against falls from a height.**

Anyone working above standard heights without handrails must be anchored by harnesses or use equipment anti falls in compliance to the NOM-009-STPS-2011, conditions of security to perform work at height.

It is strictly prohibited to consume, hold, carry, store, and sell any kind of drug within Expo Guadalajara. Any person caught will be taken to the authorities.

The entry of knives, firearms or explosive materials into the enclosure is not allowed.

The only people authorized to carry firearms shall be the official agencies and companies with existing permit from the Mexican Ministry of Defense.

It is forbidden to introduce dangerous materials or substances:

- Flammable
- Toxic
- Corrosive
- Explosive
- Infectious biological agents

Any audio, lighting and video equipment supported in the structure of the enclosure must have suitable lines.

Scaffolds and ladders must be used correctly, must be in perfect condition, in addition to remaining adequately supported to the floor.

Bore floors, columns or structures within the enclosure are not allowed. As well as the use of hydraulic jacks or mobile platforms in bad condition.

Water and power supply along with other services at ground level shall have their own protective ramp and/or caution tape.

All heavy machinery or equipment shall be supported on bearings of rubber or similar materials to protect the floor and absorb vibrations and movements of materials, goods or any other product shall be done with the utmost care to protect the floor of Expo Guadalajara, avoiding dragging or to pull objects that could damage it.

8.- SPONSORSHIPS

If the exhibitor has sponsorship, a written request for its revision and approval must be sent to SMTA. The image or brand of the sponsor may only appear in the area of the hired event.

9.- FOOD & BEVERAGES

All food and beverage services will be provided exclusively by Expo Guadalajara, so the entry of food and beverages from external suppliers into the venue is prohibited.

Exhibitors will receive a Free lunch ticket per space of 3x3 per day.

10.- GUADALAJARA 2025 LOTTERY PROCESS

The SMTA Guadalajara Expo 2025 will be held as every year in the Onsite SMTA Booth in the Guadalajara Expo 2024. You will be able to fill out the correspondent Application Format 2025 and pull out a lottery number. All interested exhibitors that want to have a better chance of participating in 2025 we encourage to approach the SMTA Booth during the 11th and 12th September Show.

EXHIBITOR APPOINTED CONTRACTORS (EAC)

An Exhibitor Appointed Contractor (EAC) is any company other than one of the designated official show contractors that an exhibitor wants to employ inside the exhibit hall for move-in, during the event or for move-out.

If an exhibitor plans to utilize the services of any independent or subcontractors other than the designated official show contractors, an Exhibitor Appointed Contractor (EAC) form must be submitted no later than September 30, 2023. Exhibitors are responsible for ensuring that their EAC's have the proper insurance and can provide this on-site if necessary.

Exhibitors and Exhibitor Appointed Contractors must adhere to the Exhibitor Appointed Contractors (EAC) Terms and Conditions.

CONSIDERATIONS

- 1 Before contracting any service, you should consult an executive to obtain the corresponding format, greater information as well as terms and conditions.
- 2 To obtain the advance rate, you must pay 100% of your service at least 15 calendar days prior to the first day of event assembly.
- 3 If you will make your payment in dollars via bank transfer, you should consult your service module executive regarding the bank account number to which the deposit must be made.
- 4 The client must calculate the amount in dollars deposit according to the exchange rate in force on the day of your payment.
- 5 If there is any difference between the payment received in dollars and the quote in pesos, this must be settled before the provision of the services.
- 6 **The prices shown here do not include VAT and are subject to change without prior notice.**
